INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
The Glaucoma Foundation, Inc.
New York, NY

Opinion

We have audited the accompanying financial statements of The Glaucoma Foundation, Inc. (the "Foundation"), which comprise the statements of financial position as of December 31, 2025 and 2024, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of December 31, 2025 and 2024, and the changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

THE GLAUCOMA FOUNDATION, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 1 – ORGANIZATION

The Glaucoma Foundation, Inc. (the “Foundation”), incorporated in New York State in 1984, was founded to stimulate and support basic and applied research in glaucoma, to gain and disseminate new information about the biological causes and treatment of glaucoma, and to identify and develop novel approaches to preserve visual function and reversal of blindness caused by glaucoma. The Foundation fulfills its mission in the following programs:

- **Medical research** – The Foundation’s Grant-in-Aid Program has awarded millions of dollars in seed money for cutting-edge research projects.
- **Educational programs** – This includes the interdisciplinary Biennial International Scientific Think Tank, which brings together some of the world’s top scientists and clinicians. These gatherings continue to be a catalyst for setting the course to find new treatments and cures for glaucoma.

The Foundation is a not-for-profit organization and has been notified by the Internal Revenue Service that it is exempt from Federal income tax under Section 501(c)(3) of the Internal Revenue Code and has not been determined to be a private foundation as defined in Section 509(a).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting, which is the process of recognizing revenue and expenses when earned or incurred.

b. Basis of Presentation

The Foundation reports information regarding its financial position and activities according to the following specific classes of net assets:

- ***Net Assets without Donor Restrictions*** – represents those resources for which there are no restrictions by donors as to their use. The board has designated funds to be used for the following specific purposes:
 - Medical research grants
 - Educational programs
 - Endowment funds

As the funds are internally designated, they are reflected on the financial statements as without donor restrictions (see Notes 6 and 7 for details).

- ***Net Assets with Donor Restrictions*** – represents those resources, the uses of which have been restricted by donors to specific purposes or the passage of time and/or must remain intact, in perpetuity. The release from restrictions results from the satisfaction of the restricted purposes specified by the donor.

THE GLAUCOMA FOUNDATION, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

c. Revenue Recognition

The Foundation follows the requirements of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 958-605 for recording contributions, which are recognized when deemed unconditional in nature. Contributions are recorded in the net asset classes referred to above depending on the existence and/or nature of any donor-imposed restriction. When a restriction expires, that is, when a stipulated time restriction ends, or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions. If donor restricted contributions are satisfied in the same period they were received, they are classified as without donor restrictions.

Contributions may be subject to conditions which are defined as both a barrier to entitlement and a right of return of payments, or release from obligations, and are recognized as income once the conditions have been substantially met.

Pledges that are expected to be received in less than one year are recorded at net realizable value. Those that are due in greater than one year are recorded at fair value, which is calculated using risk adjusted present value techniques if deemed material. Long-term pledges are considered time restricted until the period they are due, at which time they will be released from restriction and counted towards operations.

Management reviews receivables for collectability based on various factors such as historical trends and subsequent collections. Based on this review, management has deemed that no allowance for doubtful accounts is necessary for the periods ended December 31, 2025 and 2024.

d. Cash and Cash Equivalents

The Foundation considers cash held in checking accounts and money market funds with a maturity of three months or less to be cash and cash equivalents.

e. Concentration of Credit Risk

Financial instruments which potentially subject the Foundation to a concentration of credit risk, consist of cash accounts, which are placed with financial institutions that management deems to be creditworthy. At times and at year end, balances may exceed federally insured limits. While at year end the Foundation had uninsured balances, management feels they have little risk and have not experienced any losses due to bank failure.

f. Investments

Investments are recorded at fair value, which refers to the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Investment gains and losses are included as non-operating income.

THE GLAUCOMA FOUNDATION, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

g. Fair Value Measurement

Fair value refers to the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Accounting standards have established a fair value hierarchy giving the highest priority to quoted market prices in active markets and the lowest priority to unobservable data. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Foundation has the ability to access.

Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are not observable, either directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

h. Property and Equipment

Purchases of furniture, equipment, and other fixed assets that have a useful life of greater than one year and exceed \$3,000 are capitalized at cost or, if donated, at their fair value at the date of the gift. Property and equipment are depreciated using the straight-line method over the estimated useful life of the asset.

In accordance with the accounting pronouncements related to accounting for the impairment or disposal of long-lived assets, the Foundation reviews long-lived assets, including property and equipment, for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable. Management has determined that no assessment was required for the periods presented in these financial statements.

i. Leases

The Foundation determines if an arrangement is or contains a lease at inception. Leases are included in right-of-use (“ROU”) assets and lease liabilities in the statement of financial position. ROU assets and lease liabilities reflect the present value of the future minimum lease payments over the lease term, and ROU assets also include prepaid or accrued rent. Operating lease expense is recognized on a straight-line basis over the lease term. The Foundation does not report ROU assets and leases liabilities for its short-term leases (leases with a term of 12 months or less). Instead, the lease payments of those leases are reported as lease expense on a straight-line basis over the lease term. Lease terms may include options to extend or terminate the lease when it is reasonable certain that the Foundation will exercise that option.

j. Management Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

THE GLAUCOMA FOUNDATION, INC.
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

k. Contributed Services

Donated services are recognized in circumstances when they create or enhance non-financial assets or where those services require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided in-kind.

Board members and other individuals volunteer their time and perform a variety of services that assist the Organization. These services do not meet the criteria outlined above and have not been recorded in the financial statements.

l. Functional allocation of expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the financial statements. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

The following expenses were allocated using time and effort as the basis:

- Salaries
- Payroll taxes and employee benefits
- Office expense
- Occupancy
- Insurance
- Depreciation

NOTE 3 – INVESTMENTS - Continued

During the year ended December 31, 2023, the Foundation invested \$180,000 in a limited liability company that invests in various domestic and international types of securities and derivative financial instruments. This investment is carried at net asset value as a practical expedient. Redemptions of the Foundation’s investments in these investment entities vary, but are primarily available at month-end, quarter-end, or year-end with appropriate notice. There can be no assurance that the Foundation will continue the same level of returns on their investments in limited liability companies that they have received in during the past periods or that they will achieve any returns on such investments at all. In addition, there can be no assurance that the Foundation will receive a return of all or any portion of their current or future capital investments in limited liability companies.

The following summarizes investment returns:

	December 31,	
	2025	2024
Interest and dividend income	\$ 156,698	\$ 134,938

NOTE 5- OPERATING LEASE AND RIGHT-OF-USE ASSET AND OPERATING LEASE LIABILITY

The Foundation evaluated current contracts to determine which met the criteria of a lease. The Foundation leases office space in New York, NY under a non-cancelable lease which expires on April 30, 2035 and has been determined to be an operating lease. The lease term does not include any extension options. The ROU assets represent the Foundation’s right to use the underlying asset for the lease term, and the lease liabilities represent the Foundation's obligation to make lease payments arising from this lease. The ROU assets and lease liabilities were calculated based on the present value of future lease payments over the lease terms. The Foundation has made an accounting policy election to use a risk-free rate in lieu of its incremental borrowing rate to discount future lease payments. The weighted average discount rate applied to calculate lease liabilities as of December 31, 2025 and 2024 is 4.75%. The weighted average lease term as of December 31, 2025 and 2024 is nine and ten years, respectively.

NOTE 7 – ENDOWMENT FUNDS

The Foundation's endowment includes donor restricted individual and corporate funds to be held indefinitely and board designated funds for the growth of the endowment and research grants. The income from the donor restricted investments can be used to support the Foundation's research reserve for medical research grants.

Interpretation of Relevant Law

The Foundation follows New York State adopted New York Prudent Management of Institutional Funds Act ("NYPMIFA"), which the Foundation has interpreted as requiring certain amounts to be retained in perpetuity. Absent explicit donor stipulations to the contrary, the Foundation will preserve the fair value of the original gift as of the gift date of all donor restricted endowment funds. However, under certain circumstances, the Foundation has the right to appropriate for expenditure the fair value of the original gift in a manner consistent with the standard of prudence specifically prescribed by NYPMIFA.

As a result of this interpretation, the Foundation classifies as endowment corpus (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the donor's intention.

When endowment funds have earnings in excess of amounts that need to be retained as part of the corpus, their earnings are restricted until the board appropriates for expenditure, therefore, they have been classified in the class of net assets with donor restrictions.

Spending policies

In accordance with NYPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor restricted endowment funds:

- 1) The duration and preservation of the fund
- 2) The purpose of the Foundation and the donor restricted endowment fund
- 3) General economic conditions
- 4) The possible effect of inflation and deflation
- 5) The expected total return from income and the appreciation of investments
- 6) Other resources of the Foundation
- 7) The investment policies of the Foundation
- 8) Where appropriate and circumstances would otherwise warrant alternatives to expenditure of the endowment fund, giving due consideration to the effect that such alternatives may have on the Foundation

The Foundation's spending policy allows for semi-annual distributions of 2.5% of the previous year's balance to fund Glaucoma research if the total market valuation of the endowment assets is above \$5,000,000.
